

Automatic transmission **FILTERS**

NEW!

Every automatic transmission requires regular service. Changing oil and dedicated filter allows for long and trouble-free operation.

Automatic transmission filters available in Polcar offer are made of high quality filtering materials. Thanks to this:

- **perfectly retain contamination**
- **don't restrict oil flow**
- **separates moisture from oil.**

Offered filters are SRLine and Vaico products. All references are available complete with dedicated seals.

Examples of automatic transmission filters.

Part number	Sample application	Manufacturer
S11-6002	AUDI A3 cabriolet (8P7), 04.08-05.13	SRLine
