

Universal flexible FUEL HOSES

NEW!

Gates flexible fuel hoses are specially designed for use in automotive fuel systems. **Core of the line, made of Nitrile (NBR) and an external coating made of Nitrile + PVC, ensuring high quality and durability. Moreover they are resistant to ozone and weather conditions.** The whole construction **is reinforced with a textile braid.**

Please note! The sales unit of Gates fuel hoses is 1 roll.

Gates fuel hoses:

- are characterized by high resistance to temperature, fuel and oil;
- are dedicated for use with B7, E5, E10, E15 fuels and low-sulfur diesel oil;
- meet the DIN 73379:1982 standard;
- are designed to work in the temperature range from -35°C to 110°C and with a working pressure of 6 bar.

Available Gates universal flexible fuel hoses:

| Universal flexible fuel hoses in textile braid | | | | |
|--|------------------------|----------|--------------|----------------------|
| Polcar number | Internal diameter [mm] | Roll [m] | Gates number | Gates utility number |
| GTS432410050 | 3,2 | 15 | 4324-10050 | TFL3.2X15 |
| GTS432410051 | 4,0 | 15 | 4324-10051 | TFL4X15 |
| GTS432410052 | 6,0 | 15 | 4324-10052 | TFL6X15 |
| GTS432410053 | 8,0 | 15 | 4324-10053 | TFL8X15 |
| GTS432410054 | 10,0 | 10 | 4324-10054 | TFL10X10 |
