COSMETICS

NEW!

Sunnycar detailing is a brand of professional car cosmetics designed for car enthusiasts. Sunnycar products are a consistent and well-thought-out line of cosmetics, which allows you to take advanced and comprehensive care of your car at an affordable price. They are distinguished by their high effectiveness, unique composition and texture and individual fragrance for each product.

PRE-WASH FOAM

COLOURED FOAM FOR INITIAL WASHING

This agent is to be used prior to cleaning proper. It softens dirt, and does not affect the wax. The agent gives off a pleasant and intriguing scent. It is applied using a foamer. Use it in the first place, if your car is moderately soiled.

Volume: 1000 ml

Polcar number SCDPWF1

WHEEL CLEANER GEL

A GEL USED TO CLEAN RIMS, PRODUCING A BLOODY RIM EFFECT

This is a powerful cleaning agent, safe for surfaces, designed to maintain rims. It removes all stains, including metallic dirt (such as deposited dust from brake shoes and discs).

PH neutral preparation.

Volume: 500 ml

Polcar number SCDWCG05

APC

A MULTI-PURPOSE CLEANING CONCENTRATE

This concentrated cleaning agent is intended for washing a variety of surfaces. It removes all types of dirt formed on the road, such as greases, road grime, bug residue, bird droppings. The product is suitable for cleaning car body, windows, plastic components and the engine.

Volume: 1000 ml

Polcar number SCDAPC1

WET WAX

A POLYMER WAX WITH QUARTZ, WET-APPLIED

An innovative formula of wet-applied wax with quartz. It protects the paint even for two months. The wax forms a long-lasting hydrophobic layer and gives off a fruity scent.

Volume: 500 ml

Polcar number SCDWW05

QUICK DETAILER

THE PRODUCT CONDITIONS AND EMPHASIZES THE SHEEN OF PAINT

It makes surfaces shine, removes stains left by hard water, refreshes the paint. Quick Detailer is characterized by an extraordinary scent and hydrophobic action. It is also suitable for making your car shine instantly, e.g. during rallies.

Volume: 500 ml

Polcar number SCDQD05

GLASS CLEANER

AN AGENT DESIGNED FOR FLAT GLASS CLEANING

This extremely efficient agent is designed to clean flat glass. It leaves no streaks, contains no ammonia or methanol, thus being exceptionally user-friendly.

Volume: 500 ml

Polcar number SCDGC05

LEATHER CLEANER

AN AGENT DESIGNED TO CLEAN LEATHER UPHOLSTERY

An agent designed to clean leather upholstery. This is a composition of surfactants that safely and quickly penetrate dirt and make easy its removal. The pH-neutral product is absolutely safe for cleaned surfaces. It contains substances that wet and soften leather.

Volume: 500 ml

Polcar number SCDLCL05

PLASTIC SATIN DRESSING

AN AGENT DESIGNED FOR INTERIOR PLASTIC COMPONENTS

It refreshes plastic components of car interior and gives them a satin look. The product protects them against excessive wear and discolouring. Its antistatic properties prevent adhesion of dust to treated components.

Volume: 500 ml

Polcar number SCDPSD05

LEATHER CARE

A LOTION USED TO IMPREGNATE LEATHER UPHOLSTERY

A preparation designed for leather upholstery detailing. An exceptionally gentle and effective cream for leather component detailing. Natural essential oils soften and preserve upholstery, giving it a satin, antistatic, hydrophobic finish. Additionally, the preparation prevents drying and roughness of natural leather.

Volume: 250 ml

Polcar number SCDLCA025
